AUTO-IQ® PROGRAMS

Intelligent preset programs combine unique blending and pausing patterns that do the work for you. Once a preset program is selected, it will start immediately and automatically stop when blending is complete. To stop blending before the end of the program, press the currently active button again.

EXTRACT

Ideal for tough, leafy, or fibrous whole fruits and vegetables, including their skins, seeds, and stems.

SMOOTHIE (not included with all models)

Combine your favorite fresh or frozen ingredients, liquids, and powders to create smoothies and protein shakes.

FROZEN

Crush ice and frozen fruit into restaurant-style frozen drinks.

SPREAD (not included with all models)

Create anything from spreadable nut butters to zesty dressings to the perfect hummus.

BOWL

Make thick, spoonable smoothie bowls, creamy frozen yoghurt, and refreshing sorbets.

MANUAL MODE

START/STOP

Press once to start continuous running up to 60 seconds; press again to stop. Can also be pressed to stop a running Auto-iQ program.

PULSE

Offers greater control of pulsing and blending. Operates only when PULSE is pressed. Use short presses for short pulses and long presses for long pulses.

NOTE: Manual programs cannot be used in conjunction with any Auto-iQ programs. For best results when making thicker recipes, use the BOWL program and twist the built-in power paddle continuously while processing.

Cleaning

Dishwasher

Accessories are top-rack dishwasher safe and should **NOT** be cleaned with a heated dry cycle.

Hand-Washing

Wash containers, lids and blade assembly in warm, soapy water. When washing the blade assembly, use a dishwashing utensil with a handle.

TIP: For stuck-on ingredients, place 1 or 2 small drops of washing-up liquid into the jug and add warm water up to the 240ml Liquid Fill line. Install lid and blend on **MIX** program. Twist the built-in Power Paddle anti-clockwise continuously while cleaning.

WARNING: Handle the blade assemblies with care when washing, as the blades are sharp. Contact with the blades' edges can result in laceration.

QUICK START GUIDE

NINJA
TWISTI™
HIGH-SPEED
BLENDER DUO™

What's in the Box

Base

1L Power Nutri Jug
with Power Paddle

Hybrid Edge™
Blades Assembly

700ml Power Nutri Cup
with Spout Lid

NOTE: The Hybrid Edge Blades Assembly is not compatible with other Ninja products.

Power Nutri™ Cup Assembly

1.

Fill single-serve cup with desired contents. Screw on the blade assembly until you have a tight seal.

2.

Flip cup upside down and install on base. Rotate clockwise until it clicks into place.

3.

Select any program to begin blending.

4.

When blending is complete, remove cup from base. Then remove the blade assembly.

NOTE: The Power Nutri Cup and Jug share the Hybrid Edge Blade Assembly. Unscrew from pre-assembled Jug.

Taking It To Go?

Place the spout lid on top of the single-serve cup and turn clockwise to seal.

Jug Assembly

1.

Screw on the blade assembly until you have a tight seal. Fill jug with desired contents.

2.

Install the lid by aligning the red tab to the right of the jug handle. Rotate tab clockwise into the jug handle to align and lock into place.

3.

Install the jug on the base. Rotate jug clockwise until it clicks into place. Programs will illuminate when unit is ready to use.

Blend & Enjoy

1.

Select desired program. For thick outputs, twist the built-in tamper on the lid **anti-clockwise** continuously while processing.

2.

If results are too thick, open the drizzle hole cap and add more liquid. Close the cap and continue twisting the tamper **anti-clockwise** during blending.

3.

When blending is complete, remove the jug from the base. Then remove the lid and blade assembly.

NOTE: Keep the drizzle cap closed when processing liquids.

Using the Drizzle Hole & Power Paddle

Use the drizzle hole to add liquid ingredients while processing. Keep the drizzle hole cap closed when processing liquids.

To get the thickest, most even results, twist the non-removable built-in Power Paddle **ANTI-CLOCKWISE** to push ingredients toward the blades, reducing the amount of liquid needed for blending.

NOTE:

- The Power Paddle is **NOT** removable from the jug lid.
- **DO NOT** microwave or freeze any container.

WARNING: Handle the blade assembly with care, as the blades are sharp.

DID YOU KNOW?

Smoothie bowls are **thicker and spoonable**, compared to smoothies, which are thinner and drinkable.

Smoothie bowl basics

USING THE JUG

For 1 serving, use fill lines:

TIP

For 2 servings, use fill lines:

1.

Install the blade assembly. Add milk or milk alternative such as soy, coconut, almond or oat milk, up to the **LIQUID FILL** line.

ALWAYS DO THIS FIRST.

2.

Add **frozen fruit**, directly from freezer, and/or açaí up to the **MAX FILL** line.

Cut larger fruit, like bananas, in quarters. If using açaí thaw slightly and cut in quarters.

NOTE: Amplify your base by adding 1 scoop of yoghurt, flavour powder, protein powder and/or nut butter.

3.

Install the lid onto the jug, then install the jug onto the motor base. Select **MIX**.

Twist the Power Paddle **anti-clockwise continuously** while processing.

After blending is complete, pour into a bowl then add your favourite toppings, such as coconut flakes, granola, fresh bananas, berries and agave nectar.
